Important Notice of Fake Product

Recently, ICT has found an abundance of counterfeit ICT products on the market in Europe, the United States of America, China, Thailand and other Southeast Asian countries. They are using the ICT name and trademark without being licensed. Therefore, ICT is not liable for any claim to refund or replacement on any purchase of said fake products.

Those products have imported from CHINA and TAIWAN named as TP series (TP70 and TP77), TL series (TL70, TL77), XC100 and Coin Acceptor UCA2.....etc.

After inspecting some of these products, ICT has confirmed that the quality is quite poor and may indeed cause damage or even fire. Please contact a licensed operator or distributor near you.

At present, ICT is collecting evidence about the counterfeit products and is planning to take strong legal action against all parties involved. We are also in the process of new design that will include a seal to help distinguish and prevent counterfeit merchandise.

Please be aware to the following declaration:

1. All the ICT products are wholly **MADE IN TAIWAN**.
2. ICT has **NO** subsidiary or factory in China.
3. **NONE** of our authorized Chinese distributors are allowed to sell ICT products outside mainland China.
4. ICT never licensed an operator called Top Vending Machines Electronics Co., Ltd.

If customers find any suspicious counterfeit Products, please send photographic evidence to us at sales@ictgroup.com.tw or distributors near you.

Yours faithfully,
